

Clouds and Canopies

Clouds and Canopies

We've broken all the rules with our Clouds and Canopies. It's never been this much fun to express your creativity. Whether enhancing an existing ceiling or used in an exposed structure, Clouds and Canopies provide extraordinary drama and visual excitement. They can define a space, accentuate an area, control noise and make a serious design statement. We invite you to explore your options. The sky's the limit!

Formations™

Accent and Acoustical Clouds

We've brought the amazing beauty and drama of clouds indoors with Formations Accent and Acoustical Clouds. These floating clouds come in a variety of shapes and sizes, including Formations Squares and our new Formations Curves. Panel options for Squares include the contemporary look of Infusions®, the warmth of Filaments™, cool MetalWorks™ panels and the simplicity of acoustical Optima® and Ultima®. For Curves, choose Optima or Ultima Vector panels. You'll be on cloud nine with all the possibilities.

WoodWorks®

Accent and Acoustical Clouds and Canopies

The warmth and sophistication of wood is very apparent in our WoodWorks Clouds and Canopies. The look can go from traditional to playful, depending on your specific design needs. Either way, you'll find WoodWorks naturally expressive and always appreciated. And don't forget, WoodWorks Clouds and Canopies are available in standard and custom configurations, with many veneer finish options. For a totally integrated look, accentuate your ceiling design with our new WoodWorks perimeter trim – it's the natural choice.

MetalWorks™

Accent and Acoustical Clouds and Canopies

Nothing steals the show like MetalWorks Clouds and Canopies. The look is so unexpected.

Whether executed in powerful, sweeping curves or gentle arches, MetalWorks Curved Ceilings and Clouds always command attention. MetalWorks panels are available in electrogalvanized steel in a variety of finishes, edge details and perforation possibilities. For non-stop excitement, put your pedal to the metal.
