

SOUNDSOAK Wall Panels

Divide and conquer.

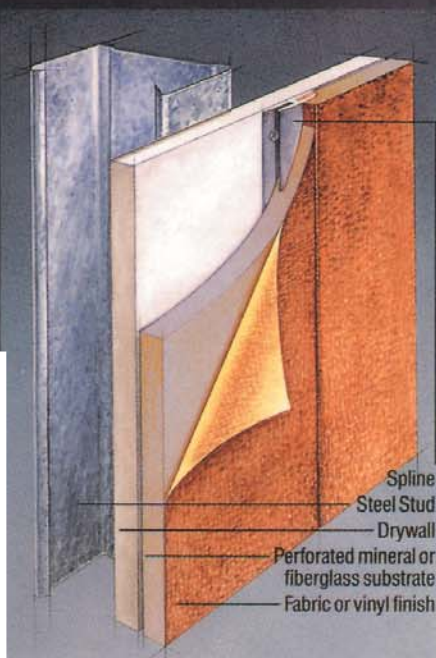

Walls should do more than divide space.

Walls can conquer your challenges to productivity and efficiency—with beauty and comfort.

Consider all the sound reasons to choose Armstrong SOUNDSOAK acoustical wall panels.

- **Reduces Noise within an Office**
- **Controls Sound Transmission between Two Spaces**
- **Beautifys Interior Spaces**
- **Tackable and Velcro Compatible**

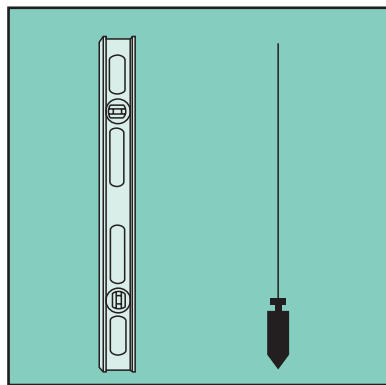

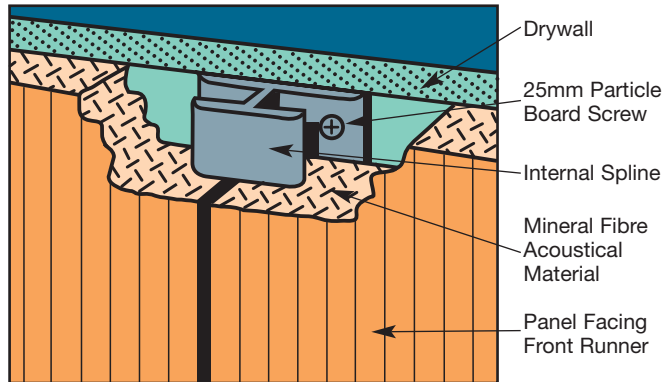

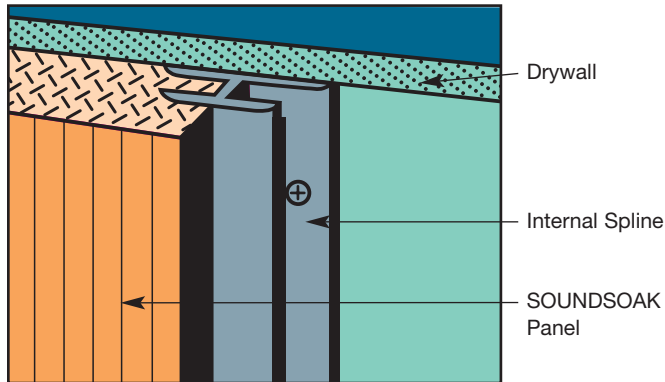

10 Year Warranty

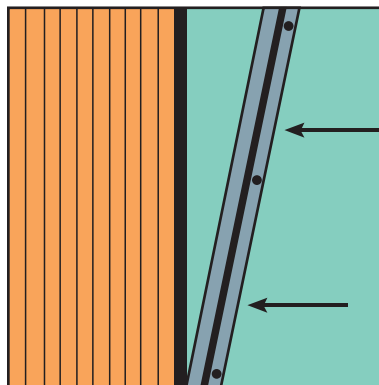

SOUNDSOAK Wall Panels

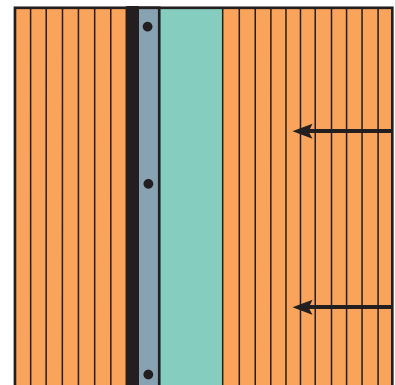

MOUNTINGS - Type A Mounting

The first step in installing SOUNDSOAK is to plumb the wall using either a level or a plumb line.

The first panel is installed by inserting the spline into the kerf on the edge of the panel. The spline is then attached to the wall using a screw gun.

Each additional panel is inserted into the previously attached spline and the new spline is then screwed to the wall.

Physical Data

Material

Wet-formed mineral fibre

Surface Finish

FrontRunner™ fabric from Melded Fabrics

Colour

All melded fabric colours

Size

762mm x 2743mm

Edge Detail

K2C2
