

## 1.0 KEY POLICY

Armstrong recognizes the importance of protecting the environment and using resources intelligently. We are committed to exercising environmental stewardship in our dealings with our customers, our employees, government and our community neighbors, and in meeting an obligation to future generations. We are committed to continual improvement and prevention of pollution (source reduction). We will comply with or exceed applicable legal and other requirements.

## 2.0 CONTRIBUTING POLICIES

### 2.1 KEY REQUIREMENTS

Our policy on environmental matters embody these aims:

- To exercise care in the selection, use and conservation of energy and raw materials, especially natural resources, to ensure that we are not wasting such resources.
- To make use of research and production technology to provide for environmental safety in work places and communities; to seek to reduce risks to the earth, its waters and atmosphere.
- To be prepared for emergencies and to act promptly and responsibly to protect people and the environment should accidents or incidents occur.
- To make and distribute products that are environmentally safe in their intended use by our customers and consumers, and to accompany them with adequate information for their proper use, maintenance, and disposal.
- To reduce waste and proactively make use of recycling in all our operations and to take care that we are disposing of unneeded materials in an environmentally safe manner.

### 2.2 RESPONSIBILITIES

**2.2.1** Armstrong conducts operations in multiple countries; and is therefore required to maintain compliance with laws and regulations of each specific country worldwide. The Armstrong Policies and Procedures establish minimum requirements that are based on U.S. laws and regulations. Business Unit and facility management are responsible to be knowledgeable of and ensure compliance with other country, state, and local laws and regulations, which require more stringent standards.

#### 2.2.2 Corporate EHS

Develop and maintain the corporate environmental policy.

#### 2.2.3 Business Unit Management

Ensure the corporate environmental policy is integrated into business strategy and used throughout operations.

#### 2.2.4 Facility Management/Safety Representative

Communicate the corporate environmental policy to all employees and contractors.

#### 2.2.5 Reviewing of objectives and targets

On an annual basis the company will review the environmental objectives and targets and the achievement of targets that have been set.
