What's New?

armstrong.com/ceilings (search: quikstix)

Drywall Grid System Solutions: QuikStix™ Soffits

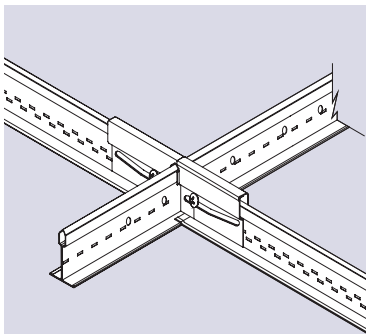

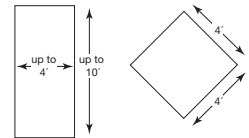

- Faster, easier, better solution for installing drop soffits
- Knockouts at 6" or 8" centers reduce cutting time
- Alignment holes make screw installation simple and forms perfect 15, 30, 45, 60 and 90-degree angles
- Flattened bulb is offset to allow true angles without interference
- Bending crimp prevents misalignment
- 90-degree angle fits locking angle molding

Catalog pages 213–216
armstrong.com/ceilings (search: soundsoak)

Custom Soundsoak® Acoustical Walls

- Special sizes
- Fabric-wrapped corners
- Variety of edge details
- Made-to-order panels

armstrong.com/ceilings (search: joint clip)

Seismic Solutions: Joint Clip SJCG

- Faster, easier, better solution to meeting seismic codes
- Save time with a reliable installation method
- Installs in minutes, no need to cut the face of the grid to install clip
- Easier to keep grid system square
- Allows use of full size panels
- Can be used in Seismic Category D, E, and F ceiling areas exceeding 2500 sf

Catalog pages 142–147
armstrong.com/ceilings (search: techzone)

TechZone™ Organized Ceilings System

- No special grid installation required
- Standard panels create the field
- Standard 6" wide technical panels house services and form the "Tech" Zone
- Easy to organize fixtures in the TechZone
- All elements pre-qualified for fit & finish

Catalog pages 47–48
armstrong.com/ceilings (search: woodworks)

WoodWorks® Linear Curved

- Standard wood plank
- Classic, open reveal style with concealed clip system
- Nominal 4-1/2" and 6" modules, including 3/4" reveals
- Available in rich, natural wood veneers
- Create curved looks with faceted grid
- Edge banding for:
 - Superior quality
 - Aesthetics
- Factory-applied black fleece on each plank to cover the reveal

Catalog pages 35–36
