

Resistance to Staining and Reagents - Linoleum

- 0:** No Stain
- 1:** Slight
- 2:** Moderate
- 3:** Severe
- Bl:** Bleaching
- D:** Dulling
- S:** Softening
- R:** Reagent left a residue

Eye Shadow	0
Hair Color	3
Lipstick	0
Perfume	0
Red Candle Wax	2, R
Red Nail Polish	3, R
Shoe Polish - Liquid Brown	0
Shoe Polish - Paste Brown	2, R

Samples were tested as manufactured (no additional surface treatments). All samples were exposed to reagents for four hours (uncovered), then cleaned with a neutral commercial cleaner and cotton cloth. A key to interpreting results is found above. It is important to note that in some cases residual stain, residues and surface dulling may be further reduced or eliminated with different or more aggressive cleaning procedures and/or cleaning agents than the common method used for this multi-product comparison. For further details on appropriate cleaning methods and care for specific products, please consult the care and maintenance guidelines for the specific product at armstrong.com/flooring.
