

AFP SUSTAINABLE DESIGN SHEET: COMMERCIAL HARDWOOD

SECTION I. PRODUCT IDENTIFICATION

Product Name: Armstrong[®] Hardwood Flooring Products
Description: Solid and Engineered Hardwood

operations, and to dispose of waste materials in an environmentally-responsible manner.

SECTION II. ENVIRONMENTAL POLICY

Key Requirements:

Our policy on the environment is:

- To exercise** care in the selection and use of energy and raw materials.
- To provide** for environmental safety in our workplaces and communities.
- To be prepared** for emergencies and to act promptly and responsibly to protect people and the environment.
- To ensure** all products conform to safety, environmental and quality standards.
- To reduce** waste and embrace recycling in all our

SECTION III. LEED[®] SUMMARY

This credit summary is for Armstrong Hardwood. Listed below are the credits in LEED[®] for New Construction (LEED-NC) and LEED for Commercial Interiors (LEED-CI) that are applicable to hardwood products.

<p>MATERIALS AND RESOURCES</p> <p>.....</p> <p>MR Credit 5.1, 5.2 REGIONAL MATERIALS</p> <p>LEED NC – 10% & 20% Extracted, Processed & Manufactured Regionally</p> <p>LEED CI – 20% Manufactured Regionally & 10% Manufactured and Extracted Regionally</p>	<p>Intent: Increase demand for building materials and products that are extracted and manufactured within the region, thereby supporting the use of indigenous resources and reducing the environmental impacts resulting from transportation.</p> <p>Requirement: LEED-NC – Use building products that have been extracted, harvested or recovered, as well as manufactured, within 500 miles of the project site for a minimum of 10% or 20% (based on cost) of the total materials value. If only a fraction of the product is extracted, harvested or recovered and manufactured locally, then only that percentage (by weight) shall contribute to the regional value.</p> <p>Armstrong solid and engineered hardwood products are manufactured in a variety of locations, predominantly in the eastern United States. Solid wood plant locations include: Beverly, West Virginia; Jackson, Tennessee; Oneida, Tennessee; Titusville, Pennsylvania; Warren, Arkansas; and West Plains, Missouri. Engineered wood plants include: Center, Texas; Somerset, Kentucky; Statesville, North Carolina; and Vicksburg, Mississippi.</p> <p>Check www.armstrong.com/ecoscorecard for item specific information.</p>
<p>MR Credit 6: Rapidly Renewable Materials</p>	<p>Intent: Reduce the use and depletion of finite raw materials and long-cycle renewable materials by replacing them with rapidly renewable materials.</p> <p>Requirement: LEED-NC - Use rapidly renewable building materials and products (made from plants that are typically harvested within a ten-year cycle or shorter) made for 2.5% of the total value of all materials and products used in the project.</p> <p>LEED-CI – Use rapidly renewable construction and Division 12 (Furniture and Furnishings) materials and products, made from plants that are typically harvested within a 10-year or shorter cycle, for 5% of the total value of all materials and products used in the project.</p> <p>Armstrong[®] Bamboo Locking Hardwood contains 30% rapidly renewable content.</p>
