### FLAT PANEL SHAKER DESIGN

Arborcrest features 2-3/4" wide and 3/4" thick solid cherry door frames that are assembled with five piece mortise and tenon construction joints, just like the craftsmanship found in fine furniture.

Arborcrest's center panel is constructed of genuine solid cherry hardwood, a quality that produces a consistently uniform look in color and graining patterns. In addition, its minimalistic design features transitional styling that can enhance any décor from traditional to contemporary.

You can select from a wide variety of hardware, decorative glass and choose convenient accessories with additional storage space or time saving features. Specialty cabinets and decorative trim are also available to add the finishing touch to your kitchen.
