SoundScapes® Basics canopies solve noise challenges and provide spot absorption.

**KEY SELECTION ATTRIBUTES**
- Define spaces and enhance acoustics in open plenum spaces with spot sound absorption
- Curved panel can be used as a hill or valley
- Fast, easy installation
- Fast lead times – perfect for retrofit applications
- Energy-efficient, high light-reflectant surface
- For additional size and color options, see SoundScapes® Acoustical Canopies and Shapes

*Each kit contains the hardware and cables for 2 hanging points. Square and hill/valley canopies have 4 hanging points. Rectangle canopies have 6 hanging points.

### PHYSICAL DATA

**Material**
Flat clouds 1.57" thick, curved canopy 1.18" thick fiberglass with DuraBrite® scrim on face and back, painted sides.

**Surface Finish**
DuralBrite scrim with factory-applied paint on face and back, painted sides. Standard White has energy-saving, high light-reflective finish (LR 0.90).

**Fire Performance**
SoundScapes Basics panel material is ASTM E84 Class A: Flame Spread 25 or under and Smoke Developed 50 or less.

**ASTM E1264 Classification**
Type X, Form 2, Pattern E

**High Recycled Content**
Contains greater than 50% total recycled content. Total recycled content based on product composition of post-consumer and pre-consumer (post-industrial) recycled content per FTC guidelines.

**Acoustical Performance**
Acoustical performance differs based on panel size. See chart above for more information.

**Design Considerations**
Special care in installation and handling must be taken to avoid surface damage to the paint finish.
Due to slight thickness and paint system variations, do not mix SoundScapes Basics with other SoundScapes products.

**Seismic Installation**
Refer to ASCE 7-10, Section 13.5 Architectural Components, for seismic requirements. Section 13.5, item 2 refers to 13.2.3 Consequential Damage.

**Suspension Systems**
See Installation Instructions BPLA-297846 for installation details.

**Warranty**
Details at armstrong.com/warranty

**Panel Weight/SF**
1.0 lbs/SF

### Physical Data

- **Material**: Mineral fiber pre-formed in canopy shape
- **Panel Arc**: Fixed 129° radius
- **Surface Finish and Edge Detail**: DuraBrite® scrim on all sides, finished square edges
- **Fire Performance**: ASTM E84 Class A per IBC
- **SoundScapes® Canopies**, as with other architectural features located at the ceiling, may obstruct or skew the planned fire sprinkler water distribution pattern, or possibly delay or accelerate the activation of the sprinkler or fire detection systems by channeling heat from a fire either toward or away from the device. Designers and installers are advised to consult a fire protection engineer, NFPA 13, and local codes for guidance where automatic fire detection and suppression systems are present.
- **Design Considerations**: SoundScapes® Canopies cannot be cut, drilled, or altered in any way. Panels can be damaged by exposure to moisture, high temperatures, and to high humidity. They are not approved for exterior application. Canopies must be installed a minimum of 18" apart. Lipping can be visible in installations closer than 18". Field painting may affect the acoustical and/or fire performance, is not recommended, and will void the product warranty. Special care in installation and handling must be taken with color canopies to avoid surface damage to the paint finish. The SoundScapes cable hanging system must not hang from the canopy below an existing ceiling. Two kits per SoundScapes panel.
- **Installation Considerations**: SoundScapes® Canopies must remain in their cartons until ready to hang. They require two people to handle and install a panel safely. Do not remove the canopy edge protectors until the panel is installed. Canopies in colors other than White require additional care to reduce scuffing. See installation instructions on web site for details.
- **Seismic Restraint**: Refer to ASCE 7-10, Section 13.5 Architectural Components, for seismic requirements. Section 13.5, Item 2 refers to 13.2.3 Consequential Damage.
- **Suspension System**: Embedded, flush-mounted hardware system and aircraft cables provided in panel kits.
- **Warranty**: Details at armstrong.com/warranty

To see coordinating Ultima® and Optima® Create!™ and RAL colors, visit armstrong.com/createcolors. Custom colors are available with a Sherwin-Williams. 4-digit color code from the Duration or Harmony flat interior paint families (Code SW _ _ _ _).

These shapely canopies enhance acoustics with spot absorption to define spaces.

### Key Selection Attributes
- Hill and valley shapes available in multiple sizes
- Adjustable to special heights
- Energy-efficient, high light-reflectant surface (White only)
- Embedded flush-mounted hardware system for clean look
- Coordinate with SoundScapes® Shapes, Metaphors® Coffers, Infusions® Canopies, lay-in panels, partitions, walls, Wings and Create™ ceiling panels
