Shapes Sizes Colors

Personalize your design at:
armstrong.com/designflex

Easy-to-specify and install with pre-cut components in a variety of panel shapes, sizes, and colors with Sustain® performance.

KEY SELECTION ATTRIBUTES

- DesignFlex® for Formations™ options include shapes, sizes, and colors in 9 standard cloud kits
- Formations™ panels, suspension system, and trim are part of the Sustain® portfolio and meet the most stringent industry sustainability compliance standards today
- CleanAssure™ family of products – includes disinfectable panels, suspension systems, and trim (Cleaning and CDC approved disinfecting options available on armstrong.com/cleaning)
- DesignFlex® for Formations™ Installation Kits include:
  - Suprafine® XL®/XM 9/16" suspension systems installation
  - Axiom® Vector (Inverted) trim cut to length with factory-mitered corners for crisp-edge detailing
  - Aircraft cable for attachment to structure
  - Axiom splices and T-Bar connectors
- Panels for all Clouds must be ordered separately
  - All clouds feature full-size panels, no field-cutting required
  - Shapes and Square/Rectangle panel options available in popular Calla®, Lyra®, Ultima®, and Optima®
- Shaped lighting options available from our DesignFlex partners – visit armstrong.com/partners for more information
- For seismic installations, refer to the DesignFlex® for Formations™ Acoustical Clouds installation instructions – visit armstrong.com/designflex for details

5 (continued) SPECIFY KITS, COLORS, AND PANEL SELECTIONS

HOW TO SPECIFY

Based on the cloud size and shape you choose, you need to specify and order:
1) the suspension and trim kit item number
2) the panel type and item numbers for the associated cloud selected

DesignFlex® for Formations™ clouds feature 9/16" Suprafine® suspension system and your choice of 4" or 6" high Axiom® Vector trim inverted.

EXAMPLE:

DF1208	S4	SP16	_ _
12' × 8' Cloud Size	Suprafine® with 4" high Axiom® Vector trim	Shapes pattern 16	Color Suffix◆

Also order Calla® Shapes panels – Item 100106

◆ If specifying a color other than White, remember to add the color suffix at the end of the Suspension Kit item number.

PARTNER COMPANIES

For more information on our partner companies, please visit armstrong.com/partners

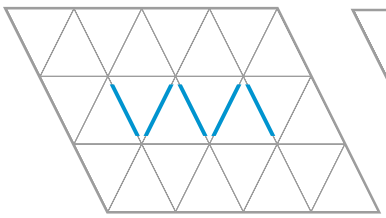

Compatible with: Axis Geometrix™ Lighting and JLC Tech lighting fixtures.

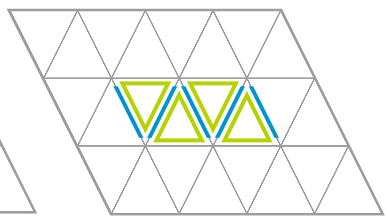

axis JLC • tech

Shaped infill panels are available for applicable lighting fixtures. Add L I N F to the end of any Shape panel item number to order. Metal diffuser infills are available from the diffuser manufacturer.

LIGHTING CONSIDERATIONS

The following shows an example layout of where lights can be placed within a DesignFlex® for Formations™ Cloud.

JLC Tech light fixtures
Axis light fixtures

- Light fixtures can NOT be installed in areas touching Axiom® Perimeter trim
- JLC TECH light fixtures can only replace cross tees, NOT main runners
- Specify light fixtures compatible with 9/16" Suprafine® XL®/XM grid
