Fire Performance
Class A: Flame Spread Index 25 or less. Smoke Developed Index 50 or less.

Design Considerations
If non-standard sizes, colors, or perforations are needed, call 877 276-7876 for TechLine, or contact your Armstrong Ceilings representative to review the MetalWorks™ RH200 Custom Plank system. Install with minimum plenum clearance.

VOC Emissions
Third-party certified compliant with California Department of Public Health CDPH/EHLB/Standard Method Version 1.2, 2017. This standard is the guideline for low emissions in LEED®, WELL Building Standard™, Living Building Challenge® (LBC), CalGreen Title 24, ANSI/ASHRAE/USGBC/IES Standard 189; ANSI/GBI Green Building Assessment Protocol.

Installation Consideration
Cut panels are non-accessible.

Recommended Suspension System
Drywall Heavy-duty main beams with MetalWorks™ Plank Hook-on cross tees, as listed above.

Seismic Restraint
MetalWorks™ Plank have been engineered, tested, and approved for application in all seismic areas, when installed per Armstrong Ceilings installation instructions.

FAST134 Program Considerations
Size of Job Matters: Big jobs, over 2500 SF or 50 pieces for shapes/vertical elements will have longer lead times.

Location Matters: Transit time not included. We are ready to ship in 1 week on FAST1 items. However, transit to the states west of Wyoming may add time.

Distributor Truck Schedule Matters: We rely on distribution to help move products around the country. When speed matters, work with your local distributor to ensure FAST134 service.

Stock vs Made-to-Order Matters: FAST3 & FAST4 items are made-to-order and will ship direct to distributor. FAST1 (stocked items) will go through distribution and depend on distributor truck schedules.
